

## CHA有机玻璃（亚克力）色浆 / CHA plexiglass (acrylic) paste

广泛应用于亮化工程、广告及建筑业浇铸PMMA有机玻璃（亚克力）制品着色。

Widely used in lighting engineering, advertising and construction cast PMMA plexiglass (acrylic) products.

### 产品特性 / Product Features

#### 进口载体及表面活性剂与高性能颜料精制配合

imported carrier and surfactant with high performance pigments refined to cooperate

#### 优异的分散性、易于添加

good dispersion, and easy to add

#### 高耐温性、高耐候性及储存性

high temperature resistance, high weather resistance and storage

#### 不影响制品力学性能及光泽

does not affect the product mechanical properties and luster

### 应用领域 / Application field

#### ● 亚克力灯饰、工艺饰品板材

sheet, acrylic lighting, craft jewelry

#### ● 亚克力透明及半透明广告板材

acrylic, transparent and semi-transparent advertising board

#### ● 甲基丙烯酸甲酯防水涂料

material yakeli furniture, sanitary ware

#### ● 亚克力纽扣、大理石等系统

acrylic buttons, marble and other systems

#### ● 重防腐涂料

heavy-duty coating
