

- 水性UV光固化丙烯酸树脂BH-W-08，为客户提供更高标准的环保产品。
- Water-based UV light curing acrylic resin BH-W-08, to provide customers with higher standards of environmentally friendly products. The The
- 三官能团脂肪族聚氨酯树脂 BH-3309A,本产品硬度高，耐磨好，主要应用在抗刮耐磨涂料领域以满足高端客户的需求。
- Trifunctional aliphatic polyurethane resin BH-3309A, this product is high hardness, good wear resistance, mainly used in the field of anti-scratch wear-resistant coatings to meet the needs of high-end customers

## UV树脂产品系列介绍 UV resin products

### 1 UV聚氨酯丙烯酸树脂 UV Polyurethane acrylic resin

| 品名<br>Product Name  | 特性<br>Characteristic  | 应用<br>Application   | 官能基<br>Functional group | 外观<br>Appearance    | 黏度<br>(cps at 25°C)<br>Viscosity | 硬度<br>Hardness |
|---|---|---|-------------------------|---------------------|----------------------------------|----------------|
| BH-3309A<br>脂肪族聚氨酯丙烯酸树脂<br>Aliphatic polyurethane acrylic resin | 润湿流平好好消光<br>耐黄变、硬度高、固化快<br>Wetting, excellent flow, good matting property, high hardness, fast curing | 适合做木器<br>辊涂哑光面漆等<br>Suitable for wood roller topcoat with matte paint, etc. | 3                       | 无色透明<br>Water clear | 30000 ± 5000<br>cps              | 3H             |
