

## JF无树脂色浆 / JF Non-resin pigment paste

广泛应用于聚氨酯、丙烯酸、氨基、酚醛、醇酸、环氧、氟碳等汽车及建筑行业溶剂型涂料着色。

Widely used in waterborne polyurethane, acrylic acid, acrylic acid/polyurethane, epoxy and copolymer latex coating product color.

### 产品特性 / Product Features

#### 含有树脂及无树脂色浆体系

Contain resin and non-resin pigment paste system

#### 颜料粒子细、易于分散、具有较高的色浓度

Small size pigment, easy dispersion, high color concentration.

#### 色谱齐全、易于调色及使用

chromatography is complete, easy to color, and use

#### 具有良好的耐光、耐候性和耐化学介质性

good light resistance, weather resistance, and resistant to chemical media

### 应用领域 / Application field

#### ● 汽车内外饰及修补漆

car inside and outside decoration and repair paint

#### ● 船舶、集装箱及标识涂料

ship, container and identify coatings

#### ● 卷材及工业建筑、机械涂料

coil and industrial buildings, machinery, coating

#### ● 塑胶及复合材料涂料

plastic and composite coatings

#### ● 木器、家具及其他工能性涂料

wood, furniture and other functional paint

#### ● 单组份专用色浆

one-component paste

#### ● 聚氨酯超耐磨专用色浆

polyurethane ultraabrasion resistant special paste
