

JF 纳米无树脂色浆 / JF nano resin-free color paste

JF 纳米无树脂色浆主要应用于包装材料的塑料、铝和金属薄膜印刷油墨，木器及化妆品涂料着色

JF nano resin-free color paste, aluminum and metal film printing ink, coating color wood and cosmetics.

产品特性 / Product Features

颜料粒子细、粒径分布窄

Small pigment, Narrow distribution.

色相纯真、饱和、光泽度亮、色谱齐全

color purity, saturation, luster bright, chromatography is complete

耐光、耐候性优越、热稳定性好、耐迁移性强

superior, light fastness, weather resistance, good thermal stability, strong resistance transference

不含重金属和其它有毒有害物质，符合欧盟REACH法规

do not contain heavy metals and other toxic and harmful substances, comply with the eu REACH regulation

应用领域 / Application field

木器家具、皮革制品表面的涂饰着色剂

Coating colorant of the surfaces of wood furniture, leather

塑料制品、金属制品表面的涂饰着色剂

plastic products, metal products surface coating colorants

金属卷材、铝箔膜及电镀胶膜表面的涂饰着色剂

Coating colorant of the surfaces of metal coil, aluminum foil membrane and plating film

烟包、糖果、食品、卡纸等包装材料表面的涂饰着色剂

Coating colorant of the surfaces of Cigarette package, candy, food, paper and other

烫金膜、皮革布料等热转印产品表面着色层的涂饰着色剂

hot stamping film, leather cloth color thermal transfer products such as surface

玻璃贴膜制品涂层的透明涂饰着色剂

transparent coating colorant of glass film products coating

高档金属烤漆、塑料烤漆、汽车漆等的着色剂

colorant of High-grade metal paint, plastic paint, automobile paint, etc

UV真空镀膜涂料的透明着色剂

Transparent coating colorant of vacuum coating UV coating

单组份丙烯酸树脂及聚氨酯着色剂

Single Component Acrylic Resin and Polyamine Colourant
