

GFS-RN 系列 防 爆 变 频 搅 拌 机

应用范围 Usage

GFS-RN系列搅拌机适用于油漆、油墨、涂料、染料等化工行业及造纸行业，对液固相物料进行湿式分散、搅拌。

This kind of mixers are suitable for producing paint, ink, coating, dyestuff and so on in chemical industry, and also for paper making industry. The mixers are used for wet dispersing and mixing liquid-solid materials.

主要特点 Features

本机采用变频调速，液压或气动升降、防爆无泄漏。生产连续性强，分散效果好，安装简便。

The mixers have the feature of frequency conversion speed-regulating, hydraulic or air-powered elevating, anti-explosion and seepage-proof. They can work continuously, disperse the materials very well and can be installed easily.
