

透明水性色浆

Transparent Water-based Colorants

产品名称 Product Name	原色 Full Shade	冲淡色 Tinting Color	颜料含量 Pigment Content%	固含量 Solid Content%	耐酸性 Acid Resistance	耐碱性 Alkali Resistance	耐温性		耐光性	
							1/1	1/25	1/1	1/25
H-172 金黄			36	42-46	5	5	6-7	6-7	4-5	4-5
H-162 黄			20	25-30	5	5	7-8	7-8	4-5	4-5
H-166 橙			20	25-30	5	5	7-8	7-8	4-5	4-5
H-161 红			25	30-35	5	5	3-4	3-4	2-3	2-3
H-171 红			25	30-35	5	5	7-8	7-8	4-5	4-5
H-181 红			25	30-35	5	5	7-8	7-8	4-5	4-5
H-163 蓝			30	35-40	5	5	7-8	7-8	4-5	4-5
H-160 黑			30	37-42	5	5	7-8	7-8	4-5	4-5

透明水性色浆产品是弱碱性体系的含有机或无机颜料的水性制备物，采用先进生产技术加工而成，专为透明涂料行业研制的水性着色剂。

Transparent water-based colorants are weak alkaline water-based pigment preparations, made from organic or inorganic pigments, processing with advances production technology. They are water-based colorants developed specially for transparent coatings industry.

特点:

- 色谱齐全，色泽鲜艳。Complete chromatography, bright color.
- 高光，透明性好。High gloss, good transparency.
- 流动状态好，泡沫低。Good fluidity, low foam.
- 粒径小且分布窄。Minimal particle and narrow distribution.
- 抗絮凝，抗沉降。Anti-jelling, anti-sedimentation.
- 良好的耐光牢度和耐候牢度。Good light fastness and weather fastness.

应用/Application:

推荐用于透明木器涂料、印刷油墨、铝箔涂层、PVC墨和包装墨。

Recommended used in transparent wood coatings, printing ink, aluminum foil coating, PVC ink and packaging ink.
